

Salesperson Breaks Dealership's Sales Record

Kevin Robles, salesperson at Pohanka Nissan of Salisbury, enthusiastically states - **"IntellaCar changed my life!"** He previously sold 15-20 cars per month, a good standard at most dealerships.

When Kevin started using IntellaCar, his sales climbed to 24, then to 30, and all the way up to 49 cars one month. **That set the all-time record for his dealership, putting him at #1 in the District.**

"IntellaCar helps me increase my closing ratios. With internet leads, I instantly send e-brochures, videos, specs, whatever they need. When I started shooting videos for every customer, that's when I really saw my sales climb."

"IntellaCar makes the car-buying process easier for the customer and easier for you as the salesperson."

Dan Fitzgerald, GM, said *"Kevin continues to push the bar with IntellaCar and challenges those around him to do the same."*
